CHAPTER - II

INTRODUCTION

Scope and Coverage :-

2.1 The present Employment Review relates to the quarter ended **March-2009**. The data analysis contained in this review is based on the statistics collected under the Employment Market Information (EMI) Programme. The data information on the level of employment is however, collected only in respect of the organised sector of economy, which comprises of establishments in the public sector and non-agricultural establishments employing 10 or more persons in the private sector. It is worth noting that where as data from all the establishment in the public sector and non-agricultural establishments in private sector employing 25 or more persons are obtained statutorily under the provisions of the Employment Exchanges (Compulsory Notification of Vacancies) Act 1959, the data from non-agricultural establishments engaging **10 to 24 persons in the private sectors are collected on a voluntary basis.**

2.2 Collection of data under the EMI Programme is resorted through an "Establishment Reporting System". All the establishments are required to submit details about the number of persons they are employing, vacancies occurred and the type of persons who are found in short supply at quarterly intervals. The information relates only to "Employers and Employees". The term 'Employers' means owners, proprietors, manager, working partners or directors of the firm/companies. On the other hand "Employees" include all those persons whose wage or salaries are paid from the establishments but does not cover part-time employees and apprentices. The EMI programme precisely does not cover the following sector.

- Self employed or independent workers.
- Agricultural and allied operations in the private sector except plantation establishments which are covered on a voluntary basic.
- House hold establishments & domestic services.
- Non Agricultural establishments in the private sector employing less than 10 workers.
- Employment in Indian missions/embassies abroad, Defence forces and those not covered due to administrative reasons and parliament staff.
- Part time, services, less than three months service.

2.3 The programme has the following limitations :-

- (i) The employer's register maintained at employment exchanges may not be comprehensive and up to date as required due to various reasons. The possibilities of omission ,therefore, can not be ruled out.
- (ii) Employment in defaulting establishments is estimated on the basis of information furnished by them in the previous quarter. The estimated figure may not reflect the real picture. The response to enquiry ranged from **40 to 50** percent (see table No.1).

CHAPTER - III

CHAPTER - VIII

SUMMARY

The Increase/ decrease in overall employment is due to following reasons.

1. Ban on creating new posts as per the Govt's policy in **Public Sector**.
2. Employment in the **Private Sector** has **increased** due to the following reasons.
 1. Industry friendly policy of the State Govt.
 2. Establishment of SEZ special packages for areas like Kutch etc.
 3. Huge investments by NRIs & foreign companies in the state as a result of Vibrant Gujarat Summits & Seminars.
